What can the Medicare LifeSense® App help monitor?

Cardiovascular
Health

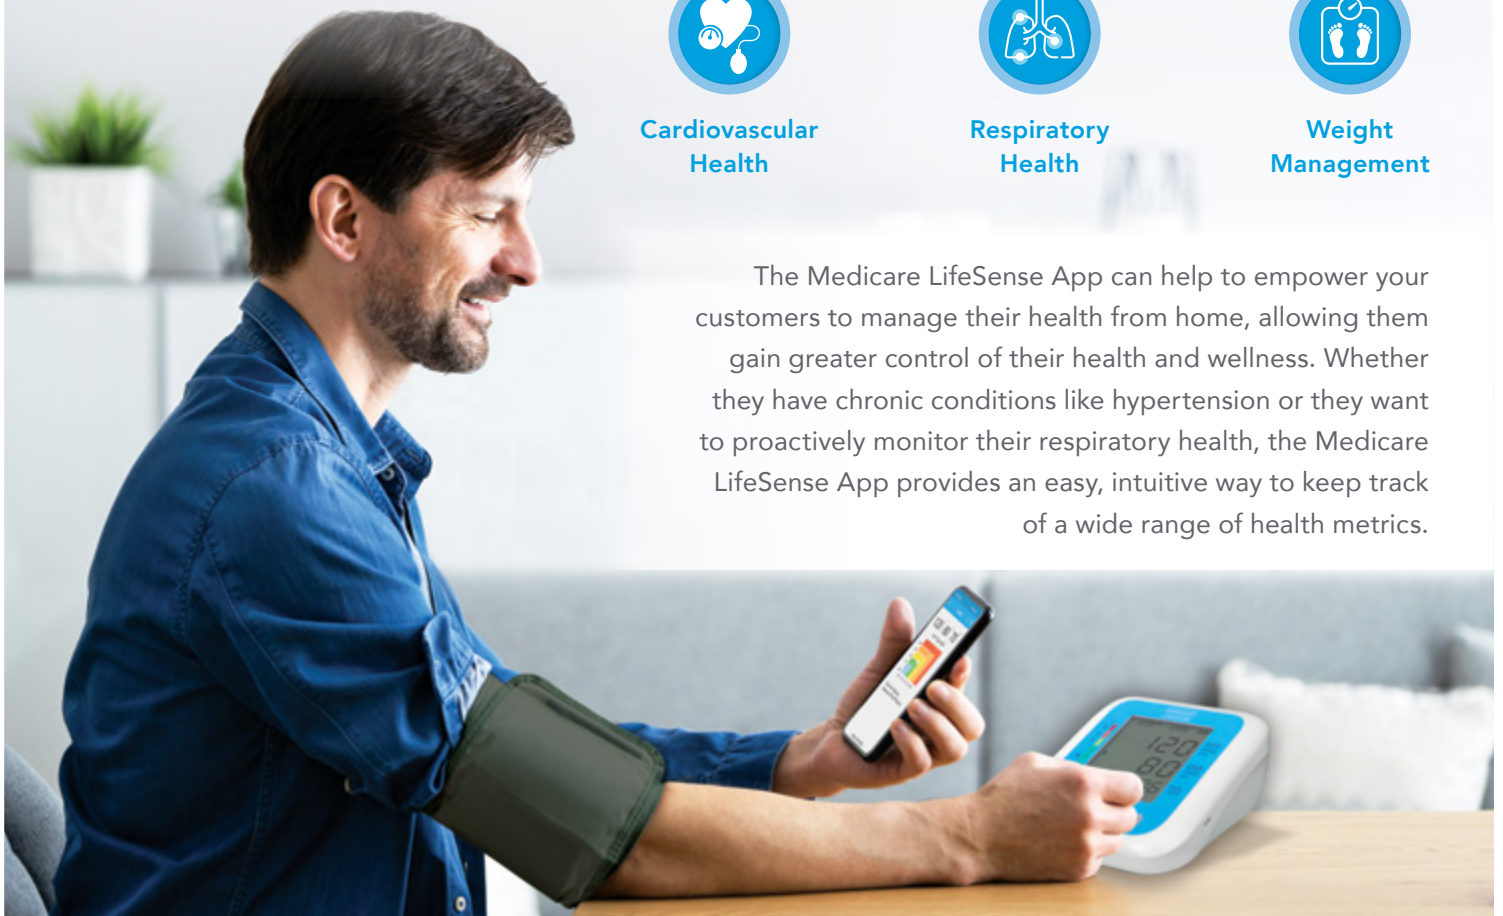

Respiratory
Health

Weight
Management

The Medicare LifeSense App can help to empower your customers to manage their health from home, allowing them gain greater control of their health and wellness. Whether they have chronic conditions like hypertension or they want to proactively monitor their respiratory health, the Medicare LifeSense App provides an easy, intuitive way to keep track of a wide range of health metrics.

Connected Patient Management

Medicare LifeSense® devices allows your customer to monitor their own symptoms, to get a better understanding of their condition, and take an active role in their health maintenance or recovery.

Blood Pressure Monitors

Taking regular blood pressure readings at home can help your customers identify conditions such as hypertension. Due to barriers such as white coat syndrome, people may feel uncomfortable in the consultation room and blood pressure readings may not reflect their usual level.

With Medicare LifeSense blood pressure monitors, a person with a health concern can measure their blood pressure and track it through the App and portal. With the Care Circles function, GPs and family members can monitor their readings and get notified when they are too high or too low.

Irregular heartbeat
detection

Syncs to Medicare LifeSense
App via Bluetooth

WHO Classification

i

Your local Fleming Medical Representative is equipped to provide training to pharmacy staff on use of our Diagnostic products and help you set them up in your consultation room.

Connected Patient Management

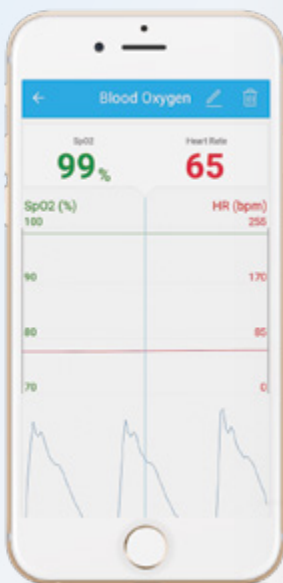

The Medicare LifeSense diagnostic range of manual and bluetooth devices are perfect for those who are looking to improve and manage their health. You can also track and share your results using our Medicare LifeSense app.

Respiratory Health

Asthmatic, COPD or cystic fibrosis patients can monitor their SpO2 levels from the comfort of their own home. The Medicare LifeSense Bluetooth Pulse Oximeter is an easy-to-use Bluetooth device that delivers quick and accurate results straight to your smartphone within 10 seconds.

Our Medicare LifeSense App can help patients or family members to raise health concerns or show improvements with GPs and healthcare professionals.

Connected Patient Management

The Medicare LifeSense App allows your patients to get a complete picture of their health. Monitor Activity, SpO2 (Blood Oxygen) levels, Blood Pressure, Sleep and Weight. Measure, Track and Share results with a caregiver, healthcare professional, or friends.

Weight Management

Our Medicare LifeSense Body Analysis Scales gives your patients a complete view of their health by providing high accuracy weight and body fat measurements as well as their Body Mass Index, Body water, Muscle and Bone Mass.

Our Body Analysis Scales syncs with the app via Bluetooth and stores all data and readings. These readings can be shared with GPs, healthcare providers and carers to get an insight into the patient's health and body composition.

Medicare LifeSense® A1 Blood Pressure Monitor

MD1814

Our Medicare LifeSense® A1 Blood Pressure Monitor is an easy to read, automatic upper arm blood pressure monitor designed with both comfort and accuracy in mind. The slim, portable design makes this a great product to bring with you when travelling or to discreetly store in the home.

The high quality blood pressure cuff measures during inflation, making the measurement time shorter and a lot more comfortable.

Validated By:

- Digital LCD display (60mm x 41mm).
- Cuff circumference: 22cm~32cm.
- Large soft touch buttons.
- Large text for high visibility.
- Irregular heartbeat detection.
- 2 x 60 memory groups per user.
- Power: 4 x AAA batteries (included).
- AC adaptor and USB cable (not included).

Non Bluetooth Device

Use the Medicare LifeSense® A5 Blood Pressure Monitor to measure your blood pressure, then manually enter your readings into the app.

Infrared Inner Ear Thermometer is both reliable & hygienic, offering accurate temperature readings while prioritising user convenience

Medicare LifeSense® Inner Ear Thermometer Infrared Device

MD1882

With its disposable probe covers, the thermometer ensures hygienic usage by preventing cross-contamination and maintaining measurement accuracy, addressing common concerns related to earwax interference. This feature not only enhances the overall cleanliness of the device but also contributes to its precision, making it a trustworthy health monitoring tool.

FAST 1 SECOND READING

- Fast, 1 second reading.
- Child and silent mode options.
- Auto shut-down after 10 secs.

SUITABLE FOR CHILDREN 3M+

INNER EAR MEASUREMENT

- Audible and visual fever warning.
- Magnetic probe cap.
- Suitable for children 3 months+.

Child Mode:

The child mode is applicable for children aged between 3 months and 12 years.

In this mode, the device is calibrated specifically for children, taking into account their smaller ear canal size and higher body temperature variability compared to adults. This offers enhanced accuracy, convenience and ensures reliable readings.

Inner Ear Thermometer Probe Cover Refill

MD1883

- 40 Medicare probe covers for MD1882 Ear Thermometer.
- Suitable for probe dispenser.
- Suitable for children 3 months plus.

Medicare V1 Compressor Nebuliser

MD2006

The Medicare V1 Compressor Nebuliser is a robust nebuliser, ideal for home-based, frequent use by adults or children. This highly efficient nebuliser combines a short inhalation time with intelligent medication delivery thanks to its powerful compressor.

The compressor generates a stream of compressed air which breaks up liquid medication and converts it into a mist so it can be easily and more effectively inhaled by the patient through the mask, nosepiece or mouthpiece.

- Suitable for people with respiratory illnesses like Asthma, COPD and Cystic Fibrosis.
- Particle size: 5µm.
- Medicine capacity: 8ml.
- Comes with full compressor nebuliser accessory kit.
- Suitable for adults and children.

- Hypoallergenic plasters with a non-stick adsorbent pad.

WOUND SPRAYS

Medicare Spray Plaster

MD500. MD501

The Medicare Spray Plaster protects minor cuts and grazes from water and dirt by creating a transparent, breathable film on the skin.

- Water resistant.
- Gradually disappears as the skin heals.
- Provides a transparent, breathable film.
- Ideal for awkward, hard-to-reach areas like the elbows, knuckles, toes or knees.
- Non-contact first aid that helps prevent infection.
- Ideal for use in situations where it is not recommended to touch the skin, for example schools.

Medicare Adhesive Remover Spray

MD503

The Medicare Adhesive Remover Spray offers gentle removal of medical adhesives like patches and bandages.

Its residue-free formula minimises skin irritation, ensuring hassle-free and comfortable adhesive removal.

- Suitable for children and the elderly.
- Does not irritate damaged skin.
- Reduces the risk of irritation.
- Evaporates with no residue.

SUITABLE FOR
CHILDREN &
THE ELDERLY

Medicare Bleeding Control Spray

MD502

The Medicare Bleeding Control Spray rapidly stops bleeding with the help of alginates that absorb and form a protective hypergel, aiding healing.

The soothing gel layer naturally dissolves as the wound heals, promoting recovery.

- Herbal ingredients aid healing and support hydration of injury site.
- Suitable for children over 3 years.
- Cooling hydrogel helps soothe pain.
- Accelerates regeneration and healing.

Medicare Bleeding Control Sponge

MD504

Our Medicare Bleeding Control Sponge has a fine-porous structure that activates the blood clotting process. It has a high suction capacity for blood and wound secretion. Our sterile, gelatin blood clotting sponge is perfect to treat mild to moderate nosebleeds, dental or dermal wound care. The sponge can also be cut into the size and shape of the wound.

- Sterile & absorbent.
- Hypoallergenic.
- 6 pieces per pack.
- Can be cut to preferred sizes.
- Size: 40 x 10 x 10mm.

**Packaging may differ from image shown*

HYPOALLERGENIC

REMOVES DUST
AND DIRT FROM
WOUNDS & EYES

STERILE UNTIL
THE LAST
DROP

Gentle Wound & Eye Wash Spray

Medicare Sterile Saline Solution - Eye & Wound Wash 100ml

MD1221

Medicare Sterile Saline Solution is perfect for gently rinsing and cleansing away dust and dirt from wounds and eyes.

The spray irrigates wounds and eyes removing foreign bodies, blood, reduces pathogens and dead tissue whilst also moistening the tissue in the process which contributes to wound healing.

- Removes dust and dirt from wounds and eyes.
- Hypoallergenic.
- Bag-on-valve technology allows you to use every last drop.
- Sterile until the last drop.
- Can be used with the canister in any position.
- Even and controlled spraying pattern at any angle.

Medicare Alcohol-Free Cleansing Wipes

MD1492

Medicare Alcohol-Free Cleansing Wipes are ideal for cleaning cuts, grazes and light wounds. Suitable for cleaning skin prior to injection.

- No sting and alcohol-free.
- Suitable for all ages.
- Gentle on skin.
- Safe and easy to use.
- 10 individually sterile foil wrapped wipes per box.
- Each wipe is saturated with 0.9% sodium chloride solution and 99.1% purified water for gentle cleansing.

Medicare Alcohol Prep Pads

MD1488, MD1489, MD1493

Suitable for cleansing skin, surfaces and prepping skin prior to injections or skin prick tests. These soft, absorbent, non-woven alcohol wipes provide rapid-acting sanitisation in a sterile formula.

- Each pad is infused with 99.9% isopropyl alcohol.
- Disinfection and antiseptic use.
- Individually sealed in flexible foil sachets.
- Pad Size: 16 x 10.5cm (10's / 50's) and 3 x 2.5cm (100's).
- Should not be used on open cuts, scrapes and grazes.
- Made from biodegradable crepe paper.

Medicare Skin Sanitiser Spray 70ml

MD587

Medicare Skin Sanitiser Spray is an alcohol-based skin sanitiser for protecting hands from germs and bacteria.

- Fast drying, non-sticky and rinse free.
- Anti-bacterial with 66% alcohol.
- Kills 99.9% of germs.

Medicare Sterile Wound Closure Strip

MD10

Medicare Sterile Wound Closure Strips stay firmly in place, allowing the skin to breathe and the wound to heal.

- 6mm x 101mm Closure Strip.
- Adhesive strip used to secure, close and support small cuts and wounds.
- Strong adhesive ensures the wound stays dry and clean while it heals.
- Hypoallergenic and Latex free.
- 2 sachets of 5 strips.

Medistrip Wound Closure Strips

MD1400/1, MD1401/1, MD1402/2

Flexible, breathable adhesive skin closures designed for wound support post-operatively or following early suture or clip removal. Medistrip is ideal for highly contoured areas of musculoskeletal movement.

I Hydrocolloid Patches

Medicare Hydrocolloid Invisible Cold Sore Patches

MD197

Medicare Hydrocolloid Invisible Cold Sore Patches are perfect for concealing, protecting and healing cold sores.

- Discreet protection.
- Facilitates faster healing.
- Seals out water, dirt and external contaminants.
- Absorbs moisture.
- Improves comfort.
- Reduces tingling and scabbing.
- 100% Waterproof.
- Latex-free.

Prepare for Cold Sore Season

The weather this time of year tends to trigger cold sores for many people. Be sure to have your pharmacy stocked with our top selling cold sore product, Medicare Invisible Hydrocolloid Cold Sore Patches.

Common Triggers of Cold Sores

Feeling run down

Stress

Cold weather

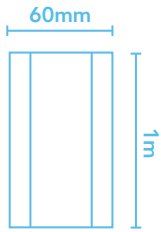

Hormonal changes

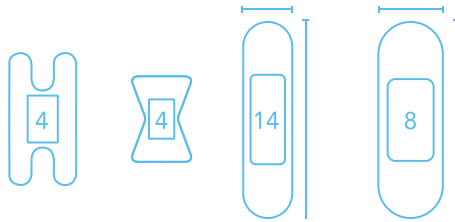

Overexposure to sun

- Seals out water, dirt and any external contaminants
- Improves comfort
- Helps with faster healing and reduction of scabbing

Medical Tapes

Medical Tapes for Securing Dressings

We offer a wide range of hypoallergenic, adhesive tapes to help meet your daily taping challenges including paper, transparent, silk and zinc oxide medical tapes.

FLEMINGMEDICAL.IE
/pharmacy/
tapes-and-bandages

For securing dressings

Medisilk Silk Tape

MD752, MD753, MD766

Medisilk Silk Tape is ideal for the fixation of dressing pads and medical devices. This is a silk finished, non-stretch, water repellent, tape with a strong, hypoallergenic adhesive. The porous, hypoallergenic tape makes it ideal for use on patients with sensitive skin, as it allows the skin to breathe through it.

PRODUCT TIP

Use to secure bulky dressings, heavier tubing and small splints.

- High strength, comfortable, taffeta-backed tape with convenient bidirectional tear.
- Adheres well to dry skin.
- Micro-perforated.
- Coated with a solvent free waterproof adhesive.
- Suitable for sensitive skin.

| Paper Tapes

For dressing sensitive skin

Medilite Paper Tape

MD754, MD755, MD767

Medilite Paper Tape is a gentle, breathable paper tape. It is ideal for fixation of dressings where frequent taping/untaping is required and is perfect for use on patients with sensitive, delicate skin.

- Micro-porous, non-woven paper tape with skin friendly adhesive.
- Hypoallergenic and allows skin to breathe.
- Suitable for delicate, sensitive skin.
- Bidirectional easy tearing.

| Transparent Tapes

For monitoring

Meditrans Transparent Tape

MD758, MD757

Transparent, perforated polyethylene film with bidirectional tear. Easily tears into very thin strips for securing tubing and dressings that need to be monitored.

- Ventilated - Allows skin to breathe.
- Skin friendly, due to hypoallergenic adhesive.

| Zinc Oxide Tapes

For extra strong adhesion

Meditape Zinc Oxide Tape

MD750, MD751, MD765

Meditape Zinc Oxide Tape is ideal for strong fixation of non-occlusive dressing material and medical devices. A stronger, more adhesive tape that stays fixed for longer. A micro-perforated, taffeta tape.

- Bidirectional easy tearing.
- Hypoallergenic skin friendly adhesive.
- Beige colour.

PRODUCT TIP

Commonly used by athletes to prevent sports injuries, protect wounds and help cuts heal faster.

Meditape Stretch Zinc Oxide Tape

MD756

Highly conformable Zinc Oxide Tape that stretches in all directions. For compression applications and securing dressings in challenging areas. A stronger, more adhesive tape that stays fixed for longer. Ideal for strapping and taping in first aid and sports applications.

- Hypoallergenic, making it suitable for sensitive skin.
- Ideal for limiting movement in injured joints, it has a serrated edge that enables it to be torn accurately without the need for scissors.
- Zinc oxide tape remains intact when worn for a long period of time, and tolerates moisture, even in humid environments.

Dressings & Bandages

First Aid Dressings for Strains, Sprains & Minor Burns

Our range of Dressings and Bandages includes elastic adhesive, conforming, and crepe bandages, as well as first aid dressings, all designed to provide effective support for strains, sprains, and minor burns. These products ensure firm and secure application, promoting comfort and aiding in the healing process for a variety of injuries.

FLEMINGMEDICAL.IE
/pharmacy/
tapes-and-bandages

| Conforming Bandages

For light compression and fixation

Mediform Conforming Bandage

MD0772, MD0773, MD0774, MD0775

Mediform Conforming Bandage is a polyamide and viscose bandage with light compression. The material is soft and highly adaptable.

- Comfortable.
- Soft, lightweight, durable bandage.
- Conforms well to the body, ensuring patient comfort.
- Ideal to hold dressings snugly in place.
- Self-adhesive, attaching to itself but not the skin.
- Breathable, allows air to circulate which promotes healing.
- Flexible to allow freedom of movement.

PRODUCT TIP

Conforming bandage can be used to hold wound dressings of all types in place with light compression effect.

Elastic Crepe Bandages

For comfortable, strong compression

Medicepe Elastic Crepe Bandage 4.5m

KO3482, KO3483, KO3484, KO3485

Medicepe Elastic Crepe Bandage is a medium stretch bandage with constant elasticity and can be used for compression bandaging, securing dressings and devices, sprains and strains, protective bandaging, oedema control and partial immobilisation.

- Comfortable, soft, stretchable bandage.
- 100% Cotton.
- Can be washed and sterilised.
- Available in 4 sizes and comes with clips.

PRODUCT TIP

Conforms well to the body, ensuring patient comfort whilst maintaining constant elasticity.

| Elastic Support Bandages

For comfort and flexibility

Medicrepe Elastic Support Bandage 5m

MD9009, MD9010, MD9011

The Medicare Elastic Support Bandage comes with special clips to secure bandage once desirable level of compression has been achieved.

The bandage is very durable and versatile and can be washed and sterilised easily. The Medicare Elastic Support Bandage features a unique yellow guideline to facilitate correct over-lapping and alignment. This ensures that an even level of compression is provided.

- Cotton, polyamide and polyurthane high stretch bandage.
- Lightweight, fray resistant and durable.

PRODUCT TIP

Due to the high quality of fabric, there is superb elasticity. In the case that some elasticity might be lost during use, it will be restored again after washing in warm soapy water.

Medicare Ambulance Dressings No.1, 2, 3

MD1891, MD1892, MD1893

- Sterile.
- First aid treatment of severe wounds with heavy blood loss.
- Thick absorbent pads with bandage to compress in place and stop heavy bleeding.

Elastic Adhesive Bandages

For high compression

PRODUCT TIP

The white elasticated bandage is specially designed to offer short-term support to weak joints, particularly ankles and knees.

Medicare Elastic Adhesive Bandage

MIL2905, MIL2906, MIL2907, MIL2908

Medicare Elastic Adhesive Bandages (EAB) offer firm directional support for strains, sprains and minor injuries. It is also used as a relieving and stretch compression bandage. The adhesive elastic bandage provides compression support for joints during high-stress sport activity. The elastic sports bandage help to minimise swelling and provide additional support as an overwrap.

- Bidirectional easy tearing.
- Hypoallergenic skin friendly adhesive
- Light and hard wearing.

Medicare Wound Dressings

MD1894, MD1895

- Absorbent pad with conforming bandage attached to secure it in place.
- Medium: 12cm x 12cm, Large: 18cm x 18cm.
- Highly absorbent.
- 1 sterile dressing per pack.

Medicare Eye Pad Dressing No.16

MD1896

- Superior protection for the healing of an eye injury.
- 1 sterile dressing per pack.
- Size: 6cm x 7cm.
- Medical grade thick absorbent pad and conforming bandage attached to secure it in place.

Medicare Dressing Scissors Sharp/Blunt

KT01

- Features a blunt tip for cutting bandages and clothing without gouging the skin.
- Size 14cm.
- 100% stainless steel dressing scissors.

Medicare Dressing Scissors Sharp/Sharp

KT02

- Features sharp strong cutting edges for precision cuts and long lasting use.
- Size 14cm.
- 100% stainless steel dressing scissors.

Medicare Dressing Scissors Blunt/Blunt

KT03

- Features blunt tips for cutting bandages and clothing without gouging the skin.
- Size 14cm.
- 100% stainless steel dressing scissors.

Medicare Foil Rescue Blanket

MD1845

- Medicare Foil Rescue Blanket prevents shock and is ideal for accident or emergency situations.
- Keeps in body heat and preserves body temperature.
- Size: 140 x 220cm.

Medicare Triangular Calico Bandage

MD1890

- Medicare Calico Triangular Bandage is a general purpose sling.
- Hard wearing, versatile and washable.
- Size: 90 x 90 x 127cm.

Medicare Lister Bandage Scissors

KT04

- Features a blunt tip to prevents accidental injury.
- Designed to safely lift bandages away from the skin for easy cutting.
- Size 14cm.
- 100% stainless steel bandage scissors.

Medicare First Aid Scissors

KT05

- Features a sharp strong cutting edges for precision cuts.
- Perfect performance tool for long lasting use.
- Size 11cm.
- 100% stainless steel first aid scissors.

Medicare Tough Cut Emergency Shears

KT08

- Features a blunt tip to prevents accidental injury.
- Designed to safely lift bandages away from the skin for easy cutting.
- Size 18cm.
- 100% stainless steel bandage shears.

Medicare Quick-Release Elasticated Tourniquet for Bleeding Control

MD1840

- Controls bleeding by stopping the flow of blood to the wound.
- One hand operation prevents pinching, jamming or catching.

Medicare Assorted Finger Protectors

MD400343

Medicare Assorted Finger Protectors protect blisters, stitches, burns and cuts from water and dirt.

- Assorted sizes: Small, Medium and Large.
- Contains 40 protectors.

Medicare Tubular Gauze

MD400436

Provides finger and toe protection, ideal for blisters, burns, cuts and stitches.

- Tube gauze expands to fit all sizes and cuts easily.
- 4 cotton gauze tubes and 4 rubber finger cots.

Medicare Finger /Thumb Stalls

MD900/1, MD901/1, MD902/1, MD903/1, MD904/1, MD905/1

- Keeps finger/thumb injuries dry and protected.
- High Quality Neoprene for warmth and comfort.

Medicare Universal Finger Splint

MD400561

Medicare Universal Finger Splint is a high quality splint that immobilises and protects injured fingers.

- Aluminium splint with foam padding.
- Customised fit for better protection.
- Adjusts for all finger injuries/wounds.
- Adjustable top band eliminates need for tape.

Medicare Finger Splint Medium/Large

MD400529

Finger extension splints designed for individuals with finger injuries or disabilities. This splint features high-grade foam to absorb shock and is attached with velcro straps.

- Aluminium splint with foam padding.
- Adjustable velcro fasteners.
- No tape needed.
- 2 pcs per pack - medium and large.

First Aid Tips

Emergency Response

You may happen to witness or come across a situation where someone has collapsed. The first thing is do is call emergency services.

While you are waiting for an ambulance to arrive, you can carry out some crucial steps to help make a person comfortable or even help with a greater chance of survival. Make sure to enrol in a CPR course so you can help in the event of an emergency.

1

Check for Consciousness

- Ask a question or give a command.
- Speak loudly and clearly to the casualty.
- A casualty in a serious state of "altered consciousness" may mumble, groan, or make slight movements.
- A fully unconscious casualty will not respond.
- If casualty is unconscious, place in recovery position and seek help immediately.

2

Open the Airway

- Remove any obvious obstruction from the mouth.
- Tilt the head back and lift the chin.
- If the casualty has stopped breathing, and you are competent to give CPR (Cardiopulmonary Resuscitation), do so.
- Otherwise, place casualty in recovery position and seek help immediately.

3

Check for Breathing

- Look for chest movements.
- Listen for sounds of breathing.
- Feel for breath on your cheek.

4

Check for Pulse

- Press your first finger and your middle finger to the side of the neck, just under the jaw and beside the windpipe - don't use your thumb as it has its own pulse. Press the skin lightly to feel the pulse.

Broken Bones/Fractures

- If a broken bone is suspected, obtain expert help.
- Do not remove casualty unless they are in a position which exposes them to immediate danger.
- Steady and support the injured part if possible with your hands, apply a Medicare Triangular Bandage if their wrist or arm is affected.

Head Injury

- If there is a scalp wound, replace any skin flaps, and using a clean pad, press down firmly and evenly over the wound. Once bleeding is controlled, secure the dressing in place with a bandage.
- Check casualty's level of response to simple questions, if consciousness is impaired send for an ambulance immediately.

Chemical Burns

- Always wear protective gloves or clothing when dealing with any chemical injuries to avoid contaminating yourself with the chemical.
- Remove any contaminated clothing from the casualty which is not stuck to the skin.
- Flush area affected with plenty of Medicare Sterile Saline Solution to ensure the area is clean of remaining chemicals. Apply a Medicare Burn Dressing to any exposed, damaged skin.
- Send casualty to hospital as soon as possible.

The Recovery Position

- Turn casualty onto their side, then lift the chin forward in open airway position and adjust hand under the cheek as necessary.
- Check casualty cannot roll forwards or backwards and monitor breathing and pulse continuously.

Advanced Woundcare

A Solution for Every Stage of the Wound Healing Process

Discover an innovative wound management range that covers all phases of wound healing. Developed especially for the treatment of acute and chronic wounds, our range offers effective, patient friendly solutions for conditions such as: Acute Wounds, Chronic Wounds, Ulcers and Burns.

FLEMINGMEDICAL.IE
/pharmacy/advanced-
woundcare

A sterile, soft, non-woven dressing with high breathability.

Designed especially for treating low to moderately exuding wounds such as surgical incisions, minor burns, cuts and abrasions.

Air-permeable: Allows the skin to breathe.

Hypoallergenic: Made from a non-woven material backed with a latex-free adhesive.

Absorbent: Highly absorbent wound pad with a non-adherent wound contact layer.

Flexible: The dressing is suitable for use on joints or awkward body contours.

Breathable: The porous structure of the non-woven fabric ensures air and water-vapour permeability.

Medporex Adhesive Surgical Dressing

MD1150, MD1155, MD1151, MD1152, MD1153, MD1154

- Adhesive.
- Sterile and individually packed.

Medporex Waterproof Surgical Dressing

MD1159, MD1160, MD1161, MD1162, MD1163

- Coated with a vapour permeable film which provides a shower proof barrier.

| Foam Dressings

A foam dressing for moderate to highly exuding wounds, ulcers, second degree burns and traumatic wounds.

Non-adhesive wound contact layer: Does not adhere to a moist wound but forms a gentle bond between the dressing and the wound. This sealing effect also helps minimise the risk of maceration.

Silicone Layer: Minimises pain and damage to the wound and skin at dressing changes. The silicone layer gently moulds to the contours of the skin which minimises skin stripping during removal.

Absorbent: Reliable absorption and excellent retention capacity that retains exudate whilst maintaining a moist wound environment.

Breathable: Soft and highly conformable and is ideal for patients with fragile skin.

Medifoam Non-Adhesive Foam Heel Dressing

(MD1384/1)

- Specifically developed to address wounds on the heel or similar anatomical areas such as the elbow where a standard dressing is not suitable.

Medifoam Non-Adhesive Foam Dressing

(MD1386/1)

- Non-adhesive.
- Waterproof and bacteria proof backing.
- Sterilised and individually packaged.

Medifoam Adhesive Foam Dressing

(MD1388/1, MD1389/1)

- Self-adhesive border dressing.
- Waterproof and bacteria proof backing.
- Sterilised and individually packaged.

A soft silicone foam dressing with border for moderate to highly exuding wounds, ulcers, second degree burns and traumatic wounds.

Non-adherent: Soft silicone wound contact layer that does not adhere to a moist wound but forms a gentle bond between the dressing and the wound.

Silicone Layer: Minimises pain and damage to the wound and skin at dressing changes. The silicone layer gently moulds to the contours of the skin.

Absorbent: Reliable absorption and excellent retention capacity resistant to leakage.

Breathable: Soft and highly conformable and is ideal for patients with fragile skin.

For use :

- Venous leg ulcers.
- Pressure ulcers.
- Diabetic ulcers.
- Second degree burns.
- Surgical and traumatic wounds.
- Can also be used under compression bandages.

skinKIND
EASY REMOVAL

Mediflex can be removed with less risk of damaging the wound or the surrounding skin. It drastically reduces both the pain and tissue damage in wound management and without the trauma of maceration and skin-stripping, early and trouble-free healing is accelerated.

Mediflex Silicone Foam Dressing

MD1164

- Waterproof and bacteria proof backing.
- Sterilised and individually packaged.

Mediflex Bordered Silicone Foam Dressing

MD1171, MD1170

- Silicone adhesive border surrounding wound pad.
- Waterproof and bacteria proof backing.
- Sterilised and individually packaged.

| Transparent Film Dressings

A breathable, transparent self-adhesive film dressing for light to moderately exuding wounds, clean, closed post-operative wounds. Made of polyurethane film which allows wounds to breathe and water vapour to escape, protecting the skin against maceration.

Sterile: Bacterial barrier helps protect the site against extrinsic contamination.

Waterproof: Patient can shower with the dressing in place.

Hypoallergenic: Latex-free adhesive.

Conformable: Non-restrictive for the patient.

For use :

- Superficial burns.
- IV sites.
- Abrasions.
- Lacerations.
- Superficial pressure ulcers.
- Closed surgical wounds.

Medisite Transparent Island Dressing

MD1530, MD1531

- Highly Absorbent: Non-adherent central wound pad.

Medisite Transparent Thin Film Dressing

MD1543

- Transparent film allows healing process to be observed without removing the dressing.

Medipad is a highly absorbent non-adherent wound pad dressing for lightly exuding wounds. It has a non-adherent laminate on one side that won't disrupt healing tissue by sticking to the wound. Ideal as a primary dressing for lightly draining wounds.

Non-adherent: Highly absorbent non adherent wound pad on one side.

Wound Pad: Rapid absorption of exudates through the open weave of the wound pad.

Absorbent: Fast, controlled absorbency of light exudates.

Non-woven: The absorbent non-woven pad is also constructed to avoid strike-through.

For use :

- Superficial burns.
- Surgical incisions.
- Sutured wounds.
- Abrasions.
- Laparoscopy sites.
- Arthroscopy sites.
- Traumatic wounds.

Medipad Non-Adherent Wound Pad

MD1350/1, MD1351/1

- Dressing Pad.

| Wound Closure Strips

Flexible, breathable adhesive skin closures designed for wound support post-operatively or following early suture or clip removal. Medistrip is ideal for highly contoured areas of musculoskeletal movement.

Durable: Non-woven fabric offers strength and durability.

Hypoallergenic: Non-woven material backed with latex-free adhesive.

Breathable: Porous backing allows wounds to breathe and vapour to escape.

Conformable: Stretchable fabric that conforms well to body contours and allows non-restrictive movement.

Water-resistant: Provides a barrier to fluids.

Medistrip Wound Closure Strips

MD1400/1, MD1401/1, MD1402/1

Meditull Paraffin Gauze Dressing consists of a leno-weave fabric of 100% absorbent cotton thread, impregnated with white soft paraffin and is used as a primary wound contact layer.

The dressing and the paraffin helps to reduce the adherence of the product to the surface of a granulating wound.

Sterile: Individually wrapped.

Non-adherent: The paraffin reduces adherence to the surface of a granulating wound.

Soothing: Promotes healing in burns, ulcers, skin grafts and traumatic wounds.

Meditull Paraffin Gauze Dressing

MD1355, MD1354/1

- The dressing is used as a primary wound contact layer.

| Non-Woven Swabs

These Sterile Swabs are used for many medical purposes, especially treating open wounds. The swabs are sterile and highly absorbent, as well as being soft and gentle on the skin. Ideal for all aspects of hospital care-hygiene, deterrence, cleansing and dressing of wounds.

Highly absorbent: Ideal for cleaning wounds.

Gentle: Non-woven, soft and gentle on the skin.

Lower fibre release: 4 ply sterile gauze swabs.

Mediswab Sterile Non-Woven Swabs (20 x 5's)

MD1304/1, MD1303, MD1302

- Sterile.
- Contains 20 sterile pouches, 5 swabs in each.

Mediswab Non-Sterile Non-Woven Swabs

MD300, MD301, MD302

- Non-Sterile Swabs are used for many medical purposes.
- Suitable for use with all antiseptic solutions.

Medigauze Gauze Swabs are made of a pre-washed, fluff dried 100% surgical grade absorbent cotton with unique crinkle-weave pattern for loft and bulk.

Our Gauze Swabs provide fast-wicking action, superior aeration, and excellent absorbency. Finished edges on the product reduce loose ends and lint.

Medigauze Gauze Swabs

MD303, MD304, MD305

- Medigauze swabs are suitable for controlling bleeding.
- Highly absorbent material, 8 ply 100% surgical grade absorbent cotton gauze.
- Low fibre release reducing the risk of wound contamination.
- Folded edges, prevents loose fibres and shedding.
- Soft material that is gentle on the skin.

Medical Dressing Sets

A range of medical sets for the treatment of wounds and minor medical procedures.

Burn Care

Burn Care Essentials - Trusted by Pharmacists

Medical grade dressings, plasters and gels provide instant relief from burns, scalds and sunburn. The sterile dressing and cooling hydrogel helps protect against infection, minimises trauma and skin damage.

[FLEMINGMEDICAL.IE
/pharmacy/burn-care/](https://www.flemingmedical.ie/pharmacy/burn-care/)

Hydrogel with soothing Aloe Vera, promoting faster wound healing

Medicare Burn Gel with Aloe Vera 100ml

MD1220

Medicare Burn Gel is a water based gel for the first aid treatment of sunburns, minor burns, and scalds.

The gel works by forming a transparent protective film as a protective barrier that cools and soothes the skin to help reduce pain and discomfort. It is effortless to apply while also being water soluble and is easily washed off.

- Soothing water based gel for minor burns and scalds.
- Cooling effect on burns and pain relief.
- Bag-on-valve technology allows you to use every last drop.
- Contains aloe vera.
- Non-contact, easy and comfortable application.
- No harmful aerosols.

protective
barrier

Medicare Burn Gel

MD77, MD78, MD79

Medicare Sterile Burn Gel provides instant relief from burns, scalds and sunburn. Suitable for burns and scalds. Protects against infection and minimises trauma and skin damage.

- Cools, soothes and moisturises the burn area and eases pain.
- Minimises trauma and skin damage.
- Non-adherent - easily washed off with cool water or saline solution.
- Comes in two sized pump bottles and a sachet that is great for when on the go. 3.5ml sachets also great for replenishing first aid kits of all sizes.

Medicare Burn Dressings

MD74, MD75, MD76

Medical grade dressing saturated in cool hydrogel for instant relief from burns, scalds and sunburn. The sterile dressing helps protect against infection, minimises trauma and skin damage.

- Suitable for use on 1st, 2nd and 3rd degree burns and sunburn.
- Cools and soothes the burn and eases pain.
- Has the ability to absorb and dissipate heat.
- Easy to remove with cool water or saline solution.
- Promotes faster healing.
- Non-adherent and non-toxic.

PRODUCT TIP

Secure dressing with a conforming bandage and replace after 2 hours to prevent drying out.

Medicare Burn Plasters

MD190

Medicare Burn Plasters are sterile hydrogel plasters suitable for the protection of minor and superficial burns.

- Provides comfort, cushioning and protection.
- Provides a bacterial barrier.
- Plasters are breathable.
- The plasters contain hydrogel which moisturises, cools and soothes, minimising trauma and helping to prevent infection.

Burn Care - First Aid Tips

Degrees of Burn

When you are burned, you experience pain because the heat has destroyed skin cells. Minor burns heal much the same way cuts do. Often a blister forms, which covers the injured area. Under it, white blood cells arrive to attack the bacteria and a new layer of skin grows in from the edges of the burn.

Burns are classified as **first**, **second** or **third** degree, depending on how deep and severe they penetrate the skin's surface.

1st degree burn

Mildest skin burn where the epidermis is damaged. Skin will be red, slightly swollen and painful but not blistered.

2nd degree burn

Epidermis and part of the dermis layer of skin are damaged. Skin will be pale pink, there may be blistering and swelling.

3rd degree burn

Most serious burn, all three layers of the skin are damaged. The skin is burnt away and the tissue underneath may appear pale or blackened. The remaining skin will be dry with no blisters.

Reduce the Risk of Burns & Scalds

-  Always keep a first aid kit in the kitchen and check the expiry dates every six months.
-  Keep a fire blanket and fire extinguisher near the kitchen in a place that is easy to access.
-  Install smoke alarms and replace batteries every year at the start of winter.
-  Ensure your home is fitted with a working electrical safety switch.
-  Check: Is the hot water in your bathroom/en suite delivered at no more than 50°C? If not, contact a licensed plumber to install mixing valves that safely lower the delivery temperature of water.

Weather Related Injury

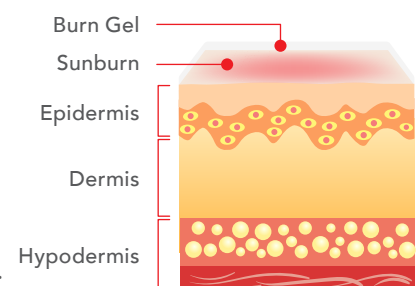

Sunburn: Give casualty fluids to drink. Apply Medicare Burn Gel or Burn Dressing to the burn. Get professional medical help immediately for severe cases.

Cold Exposure: Re-warm casualty by wrapping in Medicare Emergency Foil, blankets or placing in a tub of warm, not hot, water. Dry casualty thoroughly after bath. Give casualty hot liquids to drink, only if conscious (not alcohol). Consult professional medical help if indicated.

Skin with Sunburn

Sunburn is a form of radiation burn that affects living tissue, such as skin, that results from an overexposure to ultraviolet radiation. It usually gets better within 7 days.

You can help treat your sunburn with Medicare Burn Gel with Aloe Vera. It creates a protective barrier, relieves pain and cools burns.

Burn Care - First Aid Tips

Burns & Scalds

- 

1 Cool the burn with running lukewarm water for 10-30 minutes, ideally within 20 minutes of the injury occurring.
- 

2 Remove rings or other tight items from the burnt area. Try to do this quickly and gently, before the area swells.
- 

3 Apply Medicare Burn Gel to relieve pain and cool skin further. The pain from a burn can also be treated with an OTC pain reliever.
- 

4 To protect against infection and minimise skin damage, apply a Medicare Sterile Burn Dressing. Gently lay the burn dressing across the burn site. Do not cover, it can be secured using a conforming bandage.
- 

5 You will need to decide whether further medical treatment is necessary.

Never let a burn dressing dry completely or it will stick to the skin. Keep the burn dressing topped up with burn gel.

Most common causes of burns

Contact with hot object

Chemical

Scalding liquid

Electrical

Fire or flame

What not to do with burnt skin

Don't break open small blisters

Don't apply butter or oil

Don't remove clothing

Avoid fluffy cotton

Avoid putting too much pressure on burnt skin

Always seek medical advice from your doctor.

Sports Supports

Recover Like A Pro

ULTIMATE SUPPORT RANGE

Ultimate Patella Knee Stabiliser

This multi-purpose knee strap uses a combination of upper lower and side compression to combat pain and discomfort in the knee.

- Integrated conforming silicone pads stabilise the patella.
- Discreet design for easy and comfortable wearing throughout the day.
- Recommended for iliotibial band syndrome, runners knee, patella tendonitis, arthritis and quad misalignment.

CODE	SIZE
PX303SM	Small (31.8–34.3cm)
PX303MD	Medium (34.3–36.8cm)
PX303LG	Large (36.8–39.4cm)
PX303XL	Extra Large (39.4–41.9cm)

Ultimate Jumpers Knee Support - One Size

Designed to improve patellar tracking and elevation by applying mild pressure on the tendon below the kneecap.

- Used to help relieve patellar tendonitis caused by frequent running and jumping.
- Adjustable tension strap provides controlled compression.
- The tubular stay allows for uniform pressure to help ease pain and discomfort.
- Comfort fit for all day wear.

CODE	SIZE
PX304	OSFA

Note: Minimum Order Quantity of 3 applies.

| Ultimate Supports Range

PHYSIO LOGIX®

Ultimate Knee Support - One Size

Adjustable tension straps on top and bottom offer a varying compression and fit for weak or injured knees.

- Padded double-layer stabilisation around the kneecap.
- Lined with breathable fabric which moves moisture away from your body keeping you cool and comfortable.

CODE	SIZE
PX3511	OSFA

Ultimate Thigh Support - One Size

Adjustable fit with controlled compression for groin injuries and weak or injured quadriceps and hamstrings.

- Adjustable and lightweight design helps you maintain a comfortable full range of motion.
- Lined with breathable fabric which moves moisture away from your body keeping you cool and comfortable.

CODE	SIZE
PX3520	OSFA

Note: Minimum Order Quantity of 3 applies.

Ultimate Back Support - One Size

Lightweight, flexible back brace conforms to the anatomical structure of your back offering increased support for back strains, sciatica and more.

- Firm, structured support through the eight flexible steel springs surrounded by a soft foam padding for extra comfort.
- Adjustable tension straps ensure a comfortable fit.

CODE	SIZE
PX3518	OSFA

Ultimate Shoulder Support - One Size

Can be worn all day for comfort against tendinitis, shoulder instability, shoulder dislocation and arthritis.

- Bilateral and adjustable shoulder support with added pocket for inserting a hot/cold pack.
- Provides a therapeutic treatment for muscle or joint pain without limiting movement.
- Adjustable fit, left or right shoulder.
- Integrated sleeve and underarm strapping for maximum comfort and compression.

CODE	SIZE
PX3506	OSFA

Note: Minimum Order Quantity of 3 applies.

| Ultimate Supports Range

PHYSIO LOGIX®

Physiologix Ultimate Ankle Support - One Size

Recommended for people recently recovering from or looking to prevent ankle injuries.

- Adjustable bilateral tension straps provide controlled compression.
- Increased comfort for wearability throughout the day.
- Sectional design provides an adjustable fit.

CODE	SIZE
PX301	OSFA

Physiologix Ultimate Multi-Wrap Support - One Size

This lightweight, durable and super stretchy support is designed for use on multiple body parts.

- Durable and reusable, this wrap helps reduce muscle strain while maintaining elasticity for long-term use.
- Provides compression and support ideal for smaller body parts such as wrists, elbows and ankles.

CODE	SIZE
PX3523	OSFA

Note: Minimum Order Quantity of 3 applies.

Physiologix Ultimate Wrist Support - One Size

Relieves pain and inflammation whilst giving freedom of movement for the thumb and fingers.

- Recommended for sprained, stiff or weak wrists.
- The wraparound strap helps provide extra support and compression to ease pain and discomfort in the wrist.
- The fully adjustable support allows for a comfortable and secure fit.

CODE	SIZE
PX305	OSFA

Physiologix Ultimate Thumb Stabiliser - One Size

Designed for use on soft tissue injuries, ligament strains, gamekeeper's thumb, osteoarthritis, and degenerative joint disease.

- Adjustable tabs and wraparound tension straps allow for a comfortable and secure fit.
- The strong removable splint provides firm support and stability to help ease pressure on the injured joint.
- Long thumb strap that can be fastened around the top or base of the thumb for additional joint stability.

CODE	SIZE
PX307	OSFA

Note: Minimum Order Quantity of 3 applies.

| Ultimate Supports Range

PHYSIO LOGIX®

Ultimate Carpal Tunnel Brace - One Size

Helps relieve pain associated with Carpal Tunnel Syndrome. Adjustable tabs and wraparound tension straps allow for a comfortable and secure fit.

- Also suitable for arthritis, tendonitis, repetitive strain injury and sprains.
- The strong removable splint provides firm support and stability to help ease pressure on injured joints.

CODE	SIZE
PX3515	OSFA

Ultimate Carpal Tunnel Brace - One Size

Helps relieve pain associated with Carpal Tunnel Syndrome. Also suitable for arthritis, tendonitis, repetitive strain injury and sprains.

- Splint provides rigid support whilst allowing full range of movement for the fingers and thumbs.
- Additional strapping to customise compression and support.
- Left and right hand-specific.
- One size fits all.

CODE	SIZE

ZINC OXIDE TAPE

FIRM COMPRESSION

Physiologix Kinesiology Tapes

MD590, MD591, MD592, MD593

Designed to provide support, lessen pain, reduce swelling, improve circulation and strengthen range of motion during sporting activities all without restricting movement.

- Suitable for hands, feet, legs and shoulders.
- Light compression and support.
- Highly elastic with medium adhesion.
- Latex-free and breathable.
- Sweat-resistant.
- Available in 4 colours (black, beige, blue, pink).

Physiologix Professional Sports Tape

PX401, PX402, PX403, PX405, PX417, PX418, PX419

A medium stretch tape provides varied compression, while at the same time allowing comfort and freedom. The varied compression helps support an injured muscle/joint.

- Stretch material with medium adhesion.
- Flexible movement.
- Sticks to skin and itself.
- Easy to tear, no need for scissors.

Physiologix Cohesive Wrap

PX525, PX526, PX527, PX528

This highly elastic tape is unique in the fact that it sticks to itself but not to your skin or hair.

- Medium to firm compression and support.
- Durable, reusable and breathable.
- Medium adhesion with woven material that allows it to stretch up to double its length.
- Self-adhesive.
- Easy to unroll and use.
- Sweat proof and water resistant.

PHYSIO LOGIX®

Physiologix Zinc Oxide Tape

PX501, PX520, PX502, PX503, PX506, PX523, PX507, PX508

Highly rigid tape used to support joints by limiting movement. Suitable for high contact sports like rugby as it is heavy duty and remains intact for sustained periods of time.

- Firm compression and support.
- Rigid material with high adhesion.
- Restricted movement.
- Easy to tear, no need for scissors.
- Designed to tolerate humid environments and friction.
- Ideal for limiting movement in injured joints and assists in preventing injury.

Physiologix Pre-Taping Foam Underwrap

MD763

Use under tapes for added comfort to prevent skin chafing and for painless tape removal.

- Soft breathable and comfortable.
- Non-adhesive.
- Good tensile strength with high elasticity.

Hot & Cold Therapy

Solutions for Relief and Recovery

Our range of hot & cold sport therapy products include single use and reusable hot packs, ice packs and combination hot/cold packs.

Great for effective relief from muscular aches and pains, joint stiffness, backache, sprains and strains, swelling and minor injuries.

FLEMINGMEDICAL.IE
/pharmacy/
hot-cold-therapy/

Medicare Wrist Therapy Brace

MD482

- Reversible for use on both left and right hand.
- Use for carpal tunnel, strains, sprains, arthritis or tendonitis.
- Easy adjustable application.
- Removable splint for customised support.

Medicare Reusable Hot/Cold Therapy Pack

MD605

Medicare Reusable Hot and Cold Therapy Pack combines the therapeutic power of both Hot and Cold therapy.

- Provides relief from everyday aches and pains in a soft, flexible, drip-free pack.
- Non-toxic and reusable.

Medicare Instant Ice Pack

MD600

Relieves pain from sprains, strains and minor injuries.

- Single use only.
- Fast relief from sprains, swelling, headaches and minor injuries.
- No freezing required.
- Instant cold.

Medicare Reusable Hot/Cold Pack

MD602

Recover faster with the natural healing power of hot and cold therapy.

- Heat Therapy: For effective relief from muscular aches and pains, joint stiffness, backache, strains and sprains.
- Cold Therapy: For fast relief from sprains, strains, bruises and swelling, headaches and minor injuries.
- Reusable.

Medicare Air Activated Heat Patch

MD548

Effective and targeted relief of minor muscular and joint aches associated with overexertion, strains, sprains, and arthritis.

- Delivers up to 8 hours of heat, for deep muscle relaxation.
- Size: 9cm x 29.5cm.
- Ultra thin.
- Heats up quickly.
- Odourless.
- Can be applied to shoulder, neck, knee, wrist or back.

Medicare Ice Spray

IMP01, IMP02

Our Medicare Ice Spray is a cooling spray for the relief of pain after sports injuries and contusions. This quick and easy to use Ice Spray is the perfect size to fit into your first aid kit.

- Medicare Ice Spray for sporting injuries, swollen areas or joint stiffness.
- Non-medicated cooling propellant has an instant cooling effect to give temporary relief.
- Can be used in conjunction with cold pack therapy.
- Treatment can be repeated if necessary.

Medicare Ice Gel 150ml

MD357

An easily absorbed gel that contains camphor and menthol which help to increase local blood flow whilst having a cooling refreshing effect on the skin.

- Ideal for use after sports activities or strenuous work for skin care and massage purposes.

Medicare Adjustable Adult Arm Sling

MD521

Adjustable arm sling provides general arm support and restricts movement to assist in healing sore or injured arms and elbow.

- Keeps the shoulder still and supported, which helps to relieve shoulder pain and encourages healing sore or injured arms and elbow.
- Helps relieve pain and helps prevent re-injury.
- Adjustable padded shoulder strap allows for a custom, comfortable fit.
- Adjustable, one size fits all, fits left or right arm.

Medicare Adjustable Junior Arm Sling

MD524

Medicare Adjustable Junior Size Arm Sling is designed specifically for children. It provides general arm support and restricts movement.

- Helps relieve pain and helps prevent re-injury.
- Adjustable shoulder strap with pad allows for a custom, comfortable fit.
- Supports left or right arm.
- One size suitable for children of all ages.

Medicare Waist Slimmer Belt

MD539

The flexible neoprene material retains body heat and increases blood circulation to your abdominal muscles, which may contribute to weight loss as you exercise.

- Comfortable, supportive and adjustable.
- Fits to the contours of your body.
- Keeps muscles warm and limber.
- Suitable for everyday use for men and women.
- May relieve pain, swelling and stiffness.

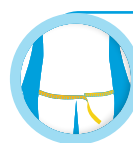

Medicare Adjustable Hernia Aid

MD540SM, MD540MD, MD540LG, MD540XL

Medicare Hernia Aid provides maximum support and comfort for reducible inguinal hernia.

- Flexible front panel fits the contours of the body and can be worn under clothing.
- Adjustable soft knitted elastic leg straps and belt hold the support firmly in place without restricting body movement.
- Removable velcro right and left support pads provide gentle gradual pressure to help inguinal hernias.
- Suitable for both men and women.

Sizing Tip

Measure around the middle of your hips for your size.

Please Note: Sizes are for guideline purposes only and may vary slightly.

Medicare Tubular Support

BV08, BV09, BV10, BV11, BV12, BV13, BV14

Medicare Tubular Support Bandage offers effective treatment for soft tissue injuries, sprains and strains.

- Easy to use and stays in place - continuous even support provided.
- No need for pins, clips or tapes.
- Can be re-applied when needed.
- Comfortable to wear, fully washable.
- Allows complete freedom of movement.

Medicare Shower Sleeve

MD400609

Medicare Shower Sleeve covers dressings and casts and keeps injuries dry.

- For the protection of cuts, burns, abrasions, post-surgical incisions, casts, IV's & PICC lines.
- Suitable for use on hand/foot/arm/knee and leg.
- Washable and reusable.
- Latex-free.

Medicare Insulin Pen Travel Wallet

MD117

Medicare Insulin Pen Travel Wallet keeps insulin pens and bottles at correct temperature without refrigeration.

- Ideal for people travelling and on the move.
- Patented fabric technology keeps insulin cool using evaporation.
- Keeps insulin lower than 2 degrees below room temperature.
- Activates with tap water in just 40 seconds.
- Can be re-activated hundreds of times.

Medicare Daily Diabetic Organiser

MD118

Medicare Daily Diabetic Organiser keeps your insulin cool for hours while travelling or going about your day to day activities.

- Keeps your insulin cool for hours.
- Transports all your diabetic supplies.
- Includes refreezable gel pack that stays cool for hours.
- Padded protective pockets.
- Secure storage for vials, pens and supplies.

First Aid For Feet

One Step Ahead - Prevent, Protect, Perform

Medicare's range of quality footcare products incorporate the latest technology to treat ailments that impede on everyday life. Our footcare range can help you stay one step ahead of corns, calluses, bunions, blisters and much more.

FLEMINGMEDICAL.IE
/pharmacy/
footcare

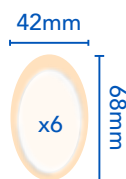

Medicare Hydrocolloid Plasters provide the latest technology in moist wound healing where the blister is protected from dirt and bacteria which encourages faster healing. The plasters absorb moisture and form a protective second skin to instantly relieve pain and provide the optimum healing conditions for foot blisters.

Medicare Hydrocolloid Blister Plasters

MD188

- 6 Plasters included of standard size.

- Relieves pain* and cushions.
- 100% Waterproof.
- Cleanpack ensures the dressing is clean when applied.
- Prevents blisters forming when you are active.
- Faster healing time due to moist environment.
- Wearing the plaster protects against bacteria.
- Excellent adhesion facilitates long wear.

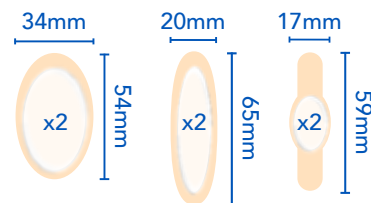

*pain relief due to cushioning/reducing rubbing and friction.

Medicare Assorted Hydrocolloid Blister Plasters

MD189

- Includes three assorted sizes per pack.
- 2 Plasters included of each sort.

Medicare Hydrocolloid Extreme Blister Cushions

MD1911

Medicare Extreme Blister Cushions give improved cushioning and protection from rubbing while helping to treat and prevent blisters.

- Facilitates the healing process.
- Relieves pain.
- Hydrocolloid.
- Waterproof.
- Latex-free.

Medicare Hydrocolloid Corn Plasters

MD187

Moisturises and softens the corn for gentle and easy corn removal.

- Immediate pain and pressure relief.
- Seals out water, dirt and external contaminants.
- 100% Waterproof.
- Breathable.
- Latex-free.

Medicare Fungal Nail Pen

MD1912

Medicare Fungal Nail Pen is a medical device that is used for the treatment of fungal nails. It improves the appearance of the nail and reduces discolouration.

In most patients, the results are visible within 2 weeks. Optimal results are obtained when used daily until the healthy nail has grown out.

- Clinically proven formula.
- Stops fungal growth.
- Easy brush applicator.

Easy to use
twist pen

Precise brush
applicator

Medicare Corn Removal Plasters with Salicylic Acid

MD1910

Medicare Corn Removal Plasters with Salicylic Acid protects against painful pressure of corns and skin callus.

- Provides support for safe and effective removal of corns.
- Contains Salicylic Acid which breaks down hard skin and reduces swelling.
- Instant pressure relief.

Medicare Toenail Clippers

MD167

- Sharp strong cutting edges for precise cuts and long-lasting use.

Medicare Toenail Scissors

MD168

- Sharp strong cutting blades for precise trimming and long-lasting use.

Medicare Cuticle Clippers

MD169

- Sharp strong cutting blades for precise cuticle trimming and long-lasting use.

Medicare Cuticle Scissors

MD170

- Sharp strong cutting blades for precise cuticle trimming and long-lasting use.

Medicare Pumice Stone

MD171

- The Medicare Pumice Stone with handle is designed to gently reduce and smooth roughened skin.
- Convenient handle allows for easier movement of stone.
- Suitable for use on feet, knees and elbows.

Medicare Dual Action Foot File

MD174

- Removes even the toughest build-up of hard skin.
- Removes tough callus and hard skin.
- Dual Action: The course surface (on the file head) safely removes even the toughest build-up of hard skin, while the finer surface (on the handle) smooths away any remaining roughness.

Medicare Pumice Stone Foot Brush

MD172

- Foot brush and pumice stone combined.
- Leaves feet soft and smooth.
- Use the soft bristled brush side to clean toenails and use the pumice stone side to gently rub away any hardened, rough or dry skin.

Medicare Smoothing Foot File

MD173

Gently removes rough dry skin.

- Leaves feet soft and smooth.
- Doubled sided: The course surface removes rough, dry skin. The finer surface buffs and refines skin for a smooth finish.

Medicare Moleskin Padding

MD186

Medicare Moleskin Padding relieves the discomfort caused by friction and rubbing.

- The protective pad can be cut to size to suit any part of your feet or shoes.
- Ideal for sore spots, corns and bunions.

Medicare Ball of Foot Cushions

MD579

Medicare Ball of Foot Cushions target ball of foot pain.

- Relieves pressure and friction.
- Ideal for people who are on their feet for long periods of time.
- Helps to reduce burning sensations.

Medicare Pressure Point Padding

MD566

Medicare Pressure Point Padding reduces pressure and friction on any part of the foot.

- Ultra soft foam material.
- Assorted sizes for extra comfort.
- 6 pcs per pack.

Medicare Foam Callus Pads

MD578

Medicare Callus Pads provide protection for calluses and other painful areas of the feet.

- Help to reduce friction and rubbing that can lead to foot pain.
- Ultra soft foam material.

Medicare Corn Cushions

MD562

Medicare Corn Cushions provide long lasting protection from painful corns.

- Relieves pressure and friction from painful shoes.
- Specially designed for use on individual toes.
- Ultra soft foam material.
- Self-stick, adhesive holds cushion in place.

Medicare Arch Supports

MD580

Medicare Arch Supports provide maximum relief from foot strain and tired aching feet.

- Ideal for flat, weak or fallen arches.
- Cushions and protect.
- Fit comfortably inside most shoe sizes.

Medicare Round Toe Cushions

MD572

Medicare Round Toe Cushions protect sensitive areas from rubbing and irritation.

- Soft foam provides extra comfort.
- 5 assorted sizes.

Medicare Foam Toe Separators

MD563

Medicare Foam Toe Separators provide relief from chaffing between the toes.

- Help prevent the overlapping of toes and the formation of ingrown toenails.
- Ultra soft foam material.

Medicare Gel Toe Separators

MD564

Medicare Gel Toe Separators are made from ultra soft gel and provide relief from discomfort caused by corns or blisters between the toes.

- Reduces friction and rubbing on adjacent toes.
- Also helpful in correct overlapping toes and preventing in-growing toenails.

Medicare Inter-Digital Protectors

MD570

Medicare Inter-Digital Protector cushions reduce pressure and friction between toes.

- Cushions and protects any corns.
- Easy to compress in order to make comfortable in shoe.
- Ultra soft foam material.

Medicare Gel Soft Toe Spreader

MD564

Medicare Gel Soft Toe Separators are made from ultra soft gel and provide relief from discomfort caused by corns or blisters between the toes.

- Reduces friction and rubbing on adjacent toes.
- Also helpful in correct overlapping toes and preventing ingrowing toenails.
- Clear and discreet soft gel material.

Medicare Finger & Toe Gel Tube Protector

MD573

Medicare Gel Tube Protector provides effective relief for fingers and toes from pressure and friction.

- Soft gel cushioning.
- Product can be cut to size.

Medicare Toe Protectors

MD567SM, MD567LG

Medicare Toe Protector helps protect and cushion tender areas on toes.

- Ideal for reducing pressure and friction.
- Protects corns, toenails and sore toes.
- Soft foam material.

Medicare Gel Bunion Protectors

MD583

Medicare Gel Bunion Protectors provide relief and protection for painful bunions.

- Slips over big toe to ensure it stays in place, protecting bunion at all times.
- Prevents rubbing and friction and relieves pain immediately.
- Fits comfortably in most shoes.

Medicare Foam Bunion Protectors

MD561

Medicare Bunion Protectors provide relief and protection for painful bunions.

- Also suitable for corns, calluses and any other sore or tender areas on feet.
- Prevent rubbing and friction and relieve pain immediately.
- Ultra Soft foam for superior cushioning.

Medicare Bunion Protector Sleeves

MD596, MD597

Medicare Bunion Protector Sleeves provide discreet relief and protection for painful bunions.

- Protects and absorbs against friction.
- Can be worn everyday in any shoe.
- Thinnest and most efficient protection.

Medicare Heel Cushions

MD576, MD577

Medicare Male and Female Heel Cushions provide you with the ultimate relief from pressure on the heel.

- Special blue circle helps relieve pressure on heel of the foot.
- Washable and reusable.
- Fits most shoe sizes.

Medicare Spur Pads

MD571

Medicare Spur Pads provide effective comfort for sore heels and reduce pain caused by heel spur or heel pain.

- The U-shape design helps correct alignment of the foot and relieve painful heel inflammation by taking pressure off painful areas.
- Absorbs shock and reduces pressure on the heel area.
- Soft silicone gel for extra comfort.

Medicare Dual Comfort Insoles

MD191

- Made from two layers of latex foam. The first soft layer cushioning is for general comfort and the second layer of more rigid cushioned foam is for extra durability.
- Closed-cell latex foam provides cushioned comfort.
- Topped with a layer of cotton for increased comfort and reduced friction.

Medicare Comfort Insoles

MD569

- Medicare Comfort Insoles provide every day comfort and cushioning for tired feet.
- Extra grip in footwear.
- Soft foam material for extra comfort.
- Full length - can be cut to suit all foot sizes.

Medicare Ultra Fresh Insoles with Charcoal

MD1922

- Made of an ultra soft fabric layer containing charcoal which helps combat odours.
- Designed not to slip or wrinkle.
- Helps combat odour and keeps feet fresh for longer.
- Closed-cell latex foam provides cushioned comfort.
- Ventilation holes helps reduce moisture and keep feet dry.

Medicare Gel Heel Shields

MD568

- Medicare Heel Shields help protect heels from shoes that cause friction across the back of your feet and help to stop shoes from slipping.
- Specially shaped for comfortable fit around the back of heel.
- Non-slip gel shield.
- Clear and discreet.
- Ultra soft and comfortable gel material.

Medicare Ball of Foot Gel Insoles

MD565

Gel insoles provide invisible gel comfort and cushioning providing added support for the balls of your feet.

- Helps to reduce pressure on the ball of your foot.
- Clear, thin discreet gel.
- Non-slip.

Medicare Insect Bite & Sting Gel 20ml

MD1050

Medicare Insect Bite & Sting Gel gently soothes and calms the skin from the discomfort, itching and swelling of a bite or sting from an insect, such as a mosquito, wasp, or horsefly.

- It can also be used for soothing the skin after a jellyfish sting or if you have been in contact with nettles.
- Can be used by adults and children over 3 years.

Medicare Aloe Vera Gel 100ml

MD351

Medicare Aloe Vera Gel quickly soothes, hydrates and restores the skin leaving it feeling cool and refreshed. It is a light, easily absorbed, non-greasy gel.

- The Aloe Vera in our Medicare Aloe Vera Gel has been extracted from the Aloe Barbadensis plant which has been used for centuries to soothe skin problems.
- No synthetic tensides or colours, parabens or petrochemicals.

Medicare Arnica Gel 100ml

MD350

A gentle, non-greasy gel to relieve pain for muscle aches, stiffness and after sporting injuries.

- The Arnica in Medicare Arnica Gel has been extracted from the Arnica Montana plant which has been recognised for its invaluable natural properties since the 16th century. Today it is used by millions worldwide.
- No synthetic tensides or colours, parabens or petrochemicals.

Medicare Adult Travel & Motion Sickness Wristbands

MD4000198

Medicare Travel & Motion Sickness Band uses the science of acupressure to alleviate the nausea of travel/motion/morning sickness, anaesthesia and chemotherapy.

- Uses the science of acupressure.
- Contains one pair and one size fits all.

Helps prevent
swollen ankles
and tired,
aching legs

Medicare Flight Socks

MD541-MD543, MD530-MD532

Medicare Flight Socks are a medically approved aid for the prevention of Deep Vein Thrombosis on long haul flights.

Legs are prone to swelling on long-haul flights, partly due to cabin pressure and prolonged sitting.

- Provides graduated compression.
- Helps prevent Deep Vein Thrombosis (DVT) during flights.
- Helps prevent swollen ankles and tired, aching legs.

Attends® Absorbency Guide

Light		Moderate	Heavy	
0	●●●●●●	4	6	8
1	●●●●●●	5	7	9
2	●●●●●●			10
3	●●●●●●			

Attends® Soft Shaped Incontinence Pads

Attends® Soft are a range of anatomically shaped pads that can be worn discreetly with your own underwear. The pad has a breathable back sheet and absorbent core to help reduce the risk of leakage, provide odour protection and skin dryness. Available in a range of absorption degrees, all to give protection for light to heavy bladder weakness.

- Smallest sizes are individually wrapped for even more hygiene.
- Breathable backsheet for extra wearing comfort.
- Odour Protection, in order to prevent unpleasant smells.
- The higher absorbency Soft pads (6 & 7) are smaller and more discreet than traditional shaped pads.

CODE	LEVEL	TYPE	LENGTH	THICKNESS	ABSORBENCY

AT0018	Level 7 ●●●●●●	-	395mm	6.5mm	850ml

Attends® Pull-Ons

Attends® Pull-On are absorbent disposable pants designed to manage heavy bladder and/or bowel incontinence (urinary/faecal). These pants look like regular underwear to help you feel confident throughout the day, and can be worn without any other underwear required. The pants have a flexible shape which fit close to the body and an absorbent core to help reduce the risk of leakage.

- Can easily be pulled up and down like normal underwear.
- Superior fit and feel.
- 100% Breathable for All-around Air Comfort.
- Maxi Comfort Technology. Full panel elastics with ultrasonic bonding.
- The powerful absorbent core locks in any liquid and odour.
- Soft and skin-friendly: The skin tolerability of Attends® Pull-Ons is dermatologically approved by proDERM Institute for Applied Dermatological Research.

MoliCare® Drop Level Guide

Slight	Moderate	Severe	Very Severe
1 	4 	7 	9 
2 	5 	8 	10 
3 	6 		

MoliCare® Premium Mobile Level 5 Large 14's

- Level: 5 Drops (moderate incontinence).

MoliCare® Premium Mobile Level 6 Medium 14's

- Level: 6 Drops (moderate incontinence).

MoliCare® Premium Mobile 5 & 6 Drop Level pull-up pants look and feel like regular underwear through anatomical shape, soft material and elastics for a comfortable fit.

Features of both products:

- The absorbent core neutralises odour and holds liquids quickly for a dry feeling.
- Easy tear-open side seams mean they can be easily pulled on and off without the need to open and close any tapes or additional help.
- Absorption/Capacity: 680ml.
- Pack size: 14 per pack.
- Size: Medium (Hips 80-120cm/31 to 47 inches)
- Wetness indicator on backing shows when to change the product.
- Maximum leakage protection is assured based on high-quality materials and the cuff system.
- Tear-open side seams for easy and convenient removal.
- Coloured stripes indicate front of pull-up pant.
- Dermatologically tested and ph. 5.5 skin neutral to maintain healthy skin.

CODE	LEVEL	SIZE
MOL01	Level 5 	60 x 90cm
MOL02	Level 6 	80 x 120cm

Attends® Slip Diaper

Attends® Slips are especially designed for users who require special care, for heavy incontinence and for prolonged sitting and lying.

- Wetness indicator changes from yellow to blue when the product needs changing.
- Leg elastics for a good fit and to help reduce the risk of leakage.
- Super absorbent core with acquisition layer for improved leakage protection, skin dryness and odour protection.

CODE	LEVEL	TYPE	SIZE	WAIST/HIP SIZE	ABSORBENCY

AT212035	Level 10	Regular	X Large	150-175cm	3699ml

Attends® Slip Active

Attends® Slip Active 10 are all-in-one products designed to manage heavy urinary and/or faecal incontinence. The breathable textile like wings provide comfort and support around the waist, and the re-sealable fixation system provides a close and comfortable fit to minimise leakages.

- Positioning tapes and two re-sealable fixation tapes for ease of fitting.
- Poly back sheet.
- Protects against leakage and odours.

CODE	LEVEL	SIZE	WAIST/HIP SIZE	ABSORBENCY
AT0070	Level 10	Medium	75-110cm	3719ml
AT0073	Level 10	Large	100-150cm	3719ml

Attends® Stress Pads For Men Level 4 14's

Attends® For Men 4 are shield shaped inserts designed for men with moderate bladder leakage. Designed for the male anatomy, this insert is thin and discreet, featuring our superabsorbent core to help you remain dry throughout the day.

- Attends® Stress Pads/Contours Pads are suitable for men who suffer with incontinence due to aging or changed prostate conditions who experience a sudden urge to go the toilet in the middle of the night, or larger gushes of urine loss.
- Fixation tape to easily be worn with your own underwear.
- Specifically designed to absorb light-moderate amounts of bladder and bowel weakness.
- Leakage protection barriers on both sides of the pad provide increased protection.

CODE	LEVEL	LENGTH	THICKNESS	ABSORBENCY
AT0091	Level 4	290mm	7mm	600-799ml

Attends® Cover-Dri Underpad Plus

Attends® Cover-Dri Plus is our protective underpad to be used for light to moderate urinary incontinence. The absorbent hexagon pads on the sheet distribute wetness quickly and evenly, absorbing liquid and preventing mess

When the pad is used, dispose of in a bin and feel confident that your surfaces are protected and dry.

- Underpads for light to moderate urinary incontinence and clinical procedures.
- Soft and comfortable top sheet.
- Non-slip waterproof backing.
- All round leakage barrier reduces the risk of leakage.
- Protects against leakage and odours.

CODE	TYPE	USAGE	SIZE
AT0078	Underpad Super	Can be used for wound handling	90 x 60cm

AT0058	Underpad Super	Surface Protector	90 x 60cm

MoliCare® Premium Bed Mat Level 7 30's

MoliCare® Bed Mats provide an extra layer of security or as a direct underpad. They are ideal to be used with beds or even chairs, furniture or other surfaces which need protection. Made of disposable cellulose fluff, they are absorbent and have a waterproof polythene backsheet to protect against leaking. Perfect for night-time or for longer periods spent seated or in bed.

- Pack Size: 30 per pack.
- Level: 7 Drops (severe/very severe incontinence).
- Meets EU Medical Device Regulation for Class 1 products.
- Dermatologically tested and skin-friendly.
- Single-use secure protection.
- Grip edging allows for easier unfolding of bed mat.

MoliCare® Premium Bed Mat Level 5 100's

MoliCare® Bed Mat products provide extra protection for various surfaces and the rectangular pads are the classic protection alternative for pads.

The new MoliCare® Premium Bed Mat 5 Drops: Disposable bed mat with an absorbent core made of cellulose fluff providing hygienic care and extra protection.

- Pack Size: 100 (4 x 25) per pack.
- Hygienic Care: Single-use protection.
- Absorbs liquid and provides extra protection for various surfaces.
- Dermatologically tested and skin-friendly.
- Grip edging allows for easier unfolding of bed mat.
- Absorbent core made of cellulose fluff.
- Waterproof polyethylene back sheet.

TERMS & CONDITIONS

All business undertaken by Fleming Medical Ltd. (hereinafter called the company) as principles, agents, wholesalers, distributors or suppliers, is transacted subject to the following terms and conditions in so far as they or any of them may be modified or varied by the company in writing and every condition herein shall be a condition of all agreements between the company and a contracting party or agent for such a party. No condition imposed by a purchaser or agent will be binding on the company unless specifically accepted by the company in writing.

DELIVERY

Goods shall be delivered by the company to the customer or to a specified address nominated by the customer. The risk of damage or deterioration of the goods arising after dispatch will be at the risk of the customer after the goods have left the company's premises. Any time or date named by the company for delivery is given and intended as an estimate only and the company shall not be liable to make good any damage or loss whatsoever arising directly or indirectly out of delay in delivery. The risk in the goods shall pass to the customer at the point of delivery i.e. when goods leave the company's premises.

TITLE

Notwithstanding delivery and the passing of risk, the property in the goods shall remain with the company until the customer has paid all monies owed in full, to the company under this contract or any contract or otherwise. Until such payment is made by the customer, the customer shall possess all goods and materials as the property in which is vested in the company by virtue of this clause on a fiduciary basis only and if the company so requires the customer shall store such goods and materials at no cost to the company so that they are clearly identified as belonging to the company. If any payment is overdue the company may (without prejudice to any of its other rights and remedies) recover and resell any or all of such goods and materials and may enter the customers premises for that purpose.

SALE OR RETURN

The clause herein relating to retention of title does not entitle the customer to return goods or refuse/delay payment on the grounds that the property in such goods has not been passed to the customer. It is explicitly against company policy to sell goods on a sale or return basis.

QUANTITY DELIVERED

Every effort will be made to deliver the quantity as ordered. Any shortages or claims of shortages must be brought to the company's attention in writing within five working days. Any claims thereafter will not be entertained and cannot be used as an excuse for non payment of account. Any complaint of failure to deliver goods invoiced must also be notified to the company in writing within seven days of the date of the invoice.

COMPATIBILITY

The responsibility for establishing the suitability of any the company's products for its intended use shall rest upon the customer and the company shall not be liable for any loss or damage whether consequential or otherwise, and the customer shall not depend upon representations made by the company or on behalf of the company to establish suitability of the company's products.

GENERAL

Customers own condition of purchase or by our standard of condition of purchase shall not apply unless specifically accepted by the company in writing in advance of goods being ordered.

CLAIMS

If any goods supplied by Fleming Medical Limited prove on inspection to be defective in material workmanship, the company undertakes as its option to replace the same or refund to the customer, the price of the goods. Under no circumstances will liability exceed the cost of replacement (at the company's option) or the price paid by the customer for such goods.

WARRANTY

The company shall not under any circumstance or whatsoever be liable for any damages where the consequential or otherwise howsoever caused or occasioned and this undertaking is given in place of and excludes all other warranties and condition whatsoever whether implied by statute or otherwise. The customer shall be responsible for any non-recoverable costs incurred by the company should the customer cancel an order it has placed.

RETURN OF GOODS

The company is unable to accept return of goods without prior notification to our offices in writing. And only when it has given authorisation for such return can goods be accepted. Any goods returned for credit will be liable to incur the following handling charges.

0-90 days - 25% Over 90 days - 50%
Over 180 days - at discretion of company

For goods to be accepted for refund, goods must be currently stocked and not a discontinued line. They also must be in perfect merchandisable condition and capable of resale and be completely without defect. Any such damage or defect will totally cancel any obligation by the company for any refund whatsoever.

PAYMENT

Payment of account must be made within thirty days of month end in which the goods were supplied and shall be strictly nett. Cheques shall be made payable to the company (Fleming Medical Limited) and not to any individuals. At the end of each calendar month any account which is overdue shall be liable to have interest charged thereon at the rate of 2.5% owed per month. Credit terms offered by the company are thirty days from month end of invoice date but such terms may be terminated at any time without prior notice by the company whereupon all balances, inclusive of interest, shall become due and owing forthwith. The operation of this term shall be at the companies absolute discretion.

The prices charged are at the date of dispatch of goods. It is an expressed condition of sale that in the event of the company having to recourse to legal action or debt collection agents against the customer in order obtain of outstanding accounts any costs in doing so are payable by the customer on a full indemnity basis and the company shall have the right to charge without notice interest at 2.5% per month, then currently enforce on any overdue accounts for as long as they are overdue.

Prices quoted in this catalogue are correct at the time of publication. However, our prices are regularly reviewed and are subject to change. For confirmation of our current prices please contact our customer service team on 061 304600.

JURISDICTION

Unless otherwise agreed these conditions of the contract shall be subject and construed in accordance with Irish law and all contracts entered into shall be deemed to have been entered into under the jurisdiction in law of the Republic of Ireland.
